

Pedagogy of Multiliteracies: Learning by Design

In today's globalized world, it is more important than ever for students to be able to communicate and collaborate effectively with people from diverse linguistic and cultural backgrounds. This requires a new approach to teaching and learning that goes beyond traditional notions of literacy and embraces the concept of multiliteracies.

Multiliteracies is a term that refers to the ability to use and understand a variety of different communication modes, including written, oral, visual, and digital. It also includes the ability to navigate and negotiate different cultural contexts and to use language in a variety of ways for different purposes.
